

Residential Electric Water Heaters

GSW

Hot water right when you need it!

Residential Electric Water Heaters

Designed to meet all your water heating needs, the GSW line of residential electric water heaters provides the optimum in reliability, performance and energy efficiency. With unique and patented special features and a broad range of models and sizes, there is a GSW product to suit any application. Manufactured by GSW, a global leader in water heaters, our complete line of electric water heaters includes leading brand names like SpaceSaver[®] compact models and Comfort Smart top-entry models. Canadian owned and operated for more than 150 years GSW is proud to have more water heaters in Canadian homes than any other manufacturer.

High Quality Features

- Patented TankSaver[®] design
- Glass-lined tanks for longer life
- Removable anodes
- Meets latest energy efficiency regulations
- Factory-installed plastic-lined nipples
- Galvanized bottom pan protects water heater from corrosion
- Patented Styropour[®] base for added energy efficiency
- Tamper-resistant drain valve
- Thermostatically controlled long life elements
- Durable textured finish
- CFC-free foam insulation

The CEA Cascade certification program is now obsolete, and the recommended replacement for all Cascade models are GSW bottom entry models.

Exclusive, patented innovation.

The exclusive and patented TankSaver[®] design works to prolong tank life. TankSaver[®] impedes corrosion by guarding metal tank openings from exposure and keeping them watertight. The durable construction virtually eliminates rust.

The Canadian Electrical Association has announced that the Cascade certification program is now obsolete. With the new performance and energy efficiency standards and testing methods that have been developed for today's superior technologies and market needs, Cascade water heaters have been replaced with advanced bottom-entry models that meet and exceed the most recent standards. These models are GSW bottom entry and are the ideal, recommended replacement heaters for all Cascade models.

Note: Elements are dual rated for 3000W/240V, 2250W/208V and 4500W/240V, 3355W/208V per element.

In keeping with our policy of continuous product improvement, GSW Water Heating reserves the right to make changes without notice.

GSW Warranty:

All GSW and John Wood Water Heaters will be replaced free of charge in the case of tank leakage within the stated warranty period from the date of installation in domestic applications, and 1 year of commercial applications. All parts supplied are warranted for 1 year. Warranty does not include labour. Consult owner's manual for complete details.
