## ESW

## Introducing ENERGY STAR ${ }^{\circledR}$ qualified models of the Superflue ${ }^{\oplus}$ Power Vented Water Heaters

The FVIR Superflue ${ }^{\circledR}$ water heater is designed with an ultra quiet blower and state-of-the-art gas control with advanced self-diagnostics for quick and easy servicing. The unique flammable vapour ignition resistant (FVIR) Superflue ${ }^{\circledR}$ Safety System enhances the safety and the peace-of-mind of the consumer. Perfect for both residential new home construction and replacement water heater applications; the FVIR Superflue ${ }^{\oplus}$ provides the ideal solution

ENERGY STAR HIGH EFFICIENCY for your hot water needs.

## ENERGY STAR ${ }^{\circledR}$ QUALIFIED MODELS

- Same foot print as existing heaters making them perfect for replacement
- Turbulator ${ }^{\text {rum }}$ dip tube for self-cleaning, reducing sediment at the bottom of the tank and increasing hot water output by as much as $8 \%$
- Over $20 \%$ more foam insulation and higher EF for energy and cost savings

## High Quality Features

## Safety Features

- Flammable vapour sensor detects the presence of flammable vapours and automatically disables the unit preventing their ignition
- The only flammable vapour sensor in the industry that is protected from contaminants
- Robust air intake snorkel inhibits flammable vapours from entering the sealed combustion chamber

## Serviceability

- State-of-the-art modular gas control features advanced self-diagnostic capability that makes troubleshooting easy

## Industry Leading, Ultra Quiet Blower

- Quietest power vent water heater on the market

## Water Heater Features

- Compact design - ideal as a replacement water heater and for closet installations
- Exclusive patented TankSaver ${ }^{\circledR}$ design to prolong tank life
- Convenient 3/4" side taps for combination applications on G5065S and G5065L

## The Ultimate in Venting Flexibility

- All units can be vented horizontally through the wall or vertically through the roof with plastic venting pipe certified for gas-fired appliances

## Introducing ENERGY STAR ${ }^{\circledR}$ qualified models of the Superflue ${ }^{\oplus}$ Power Vented Water Heaters

CAPACITY \& PERFORMANCE

| Model | Capacity USG (Litres) | Input BTU |  | Recovery @ $100^{\circ} \mathrm{F} / 45^{\circ} \mathrm{C}$ Rise USG/h (Litres/h) |  | Energy Factor Std / ES | Shipping Weight lb (kg) |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

For propane models, substitute $N$ with P. For example, model $6 G 40 N V H-F V$ natural gas is model $6 \mathrm{G} 40 \mathrm{PVH}-\mathrm{FV}$ in propane. Inputs are based on sea $(0-2,000 \mathrm{ft})$ level models. High altitude ( $0-4,500 \mathrm{ft}$ ) models are de-rated by $10 \%$ as per CSA. In keeping with our policy of continuous product improvement, GSW Water Heating reserves the right to make changes without notice.

## ENERGY STAR ${ }^{\oplus}$ qualified models are available for the above listed Power Vent water heaters.

To order an ENERGY STAR ${ }^{\oplus}$ qualified model you must replace the "FV" with "ES" at the end of the model.

* side taps

## GSW Warranty:

All GSW and John Wood ${ }^{\circledR}$ Water Heaters will be replaced free of charge in the case of tank leakage within the stated warranty period from the date of installation in domestic applications, and one year in commercial applications. All parts supplied are warranted for one year. Warranty does not include labour. Consult owner's manual for complete details.
